Ceaseless

Ceaseless makes it easy to pray for others through a simple, inviting experience. Every day it shows three people from your Contacts to pray for. You can add notes and favorite people you want to pray for more frequently. This daily habit helps build stronger relationships with God and others. Ceaseless is available for iPhone and iPad.

Prayer shouldn't feel like a to-do list. Ceaseless' inviting and simple interface makes it easy to keep notes on your conversations with others so that you know how to pray for them personally.

Don't feel overwhelmed with too many things to pray for. Ceaseless presents three people to pray for each day. Over time you will pray for all the people you care about.

Don't forget to give thanks. Use Ceaseless as a prayer journal by writing out your prayers to God along with answers to prayer so that you can remember his faithfulness and experience the joy of gratitude.

Once you start praying for three people each day, it's easy to keep the habit going as you look forward to discovering who to pray for the next day.

Ceaseless Features

A simple and inviting daily prayer experience to help you focus

Ceaseless shows you three people to pray for each day. It does not overwhelm you with too much content or interrupt your day with requests.

Contacts sync

Ceaseless syncs with your Contacts so that you do not have to do any tedious setup of people to pray for. If there are Contacts that should not be prayed for you can remove them when Ceaseless presents them to you in the daily experience.

Favorite your most important relationships

Favorite the people you want to pray for most frequently. Ceaseless will show them more often so that you have a meaningful prayer experience each day.

Tag multiple people in your notes

You can create notes when people ask you to pray for them so the next time Ceaseless presents them you will remember how to pray and can follow up. If a request or a prayer pertains to multiple people you can tag all of them. Your notes are private--tagging does not share the note with anyone.

Set a daily notification time to help you remember to pray

Ceaseless will send a notification at that time to help you keep the discipline of prayer you already want.

Scripture to help your prayer life increase in breadth and depth

Ceaseless shows a Scripture related to prayer each day to help you increase the breadth and depth of your prayer life. Pray for more of what God invites you to. Pray in more of the ways God teaches you to.

FAQs

How much does Ceaseless cost?

Ceaseless is free in the App Store. We want to help believers consistently experience the joy of praying for others.

What are the system requirements?

Ceaseless for iPhone and iPad requires iOS8.

Does Ceaseless support iCloud?

Not yet, syncing Ceaseless data to the cloud is on the product roadmap.

Does Ceaseless work with the Contacts app?

Yes, Ceaseless syncs with the Contacts app to get the list of people to pray for. Adding or removing people from the Contacts app will add/remove them from Ceaseless.

Does Ceaseless support Background App Refresh?

Yes, Ceaseless uses Background App Refresh to keep dynamic content up to date.

When was Ceaseless released?

Ceaseless for iPhone and iPad was released to the App Store on May 8th, 2015.
